

## Temperature Monitoring Fee Policy

August 9, 2021

Dear Valued Supplier,

As you are aware, Blue Apron has temperature requirements for delivery of certain products, which requirements are posted on our Supplier Portal (<https://supplierportal.blueapron.com>). Effective as of August 23, 2021, Blue Apron is implementing a fee to be assessed on loads that are shipped without the required Sensitech TempTale® RF temperature monitor(s).

If Blue Apron accepts a load that is shipped without the required Sensitech TempTale® RF temperature monitor(s), we will assess a fee of \$50. Blue Apron may, at its election, offset any fees owed under this policy against any amounts Blue Apron owes to you or may owe to you in the future.

Consistent with our existing policy, loads that are shipped without the required Sensitech TempTale® RF temperature monitor(s) may be rejected as Nonconforming Product at Blue Apron's discretion.

To order TempTale RF Monitors, you may contact Sensitech by phone at (800) 843-8367 or by email at [clientservices@sensitech.com](mailto:clientservices@sensitech.com).

\* \* \* \* \*

If you have questions regarding the above policy, please do not hesitate to reach out to your Blue Apron Sourcing Manager.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg Wysocki", written over a light blue horizontal line.
